I know you care about **immigrant rights** so found info on Project 2025's impact. It's from pg. 143 in their plan: "Congress should mandate and fund additional bed space for alien detainees. ICE should be funded for a significant increase in detention space, raising the daily available number of beds to 100,000."

Budget

- Congress should mandate and fund additional bed space for alien detainees. ICE should be funded for a significant increase in detention space, raising the daily available number of beds to 100,000.

I know you care about **LGBTQ+ rights** so found info on Project 2025's impact. It's from pg. 481 in their plan: "...prioritize policies that 'maintain a biblically based, social science-reinforced definition of marriage and family'" – also referred to as "heterosexual, intact marriage."

TEXT #2 (save photo(s) then send/attach)

- Protect faith-based grant recipients from religious liberty violations and maintain a biblically based, social science-reinforced definition of marriage and family. Social science reports that assess the objective outcomes for children raised in homes aside from a heterosexual, intact marriage are clear. All other family forms involve higher levels of instability (the average length of same-sex marriages is half that of heterosexual marriages); financial stress or poverty; and poor behavioral, psychological, or educational outcomes.

For the sake of child well-being, programs should affirm that children require and deserve both the love and nurturing of a mother and the play and protection of a father. Despite recent congressional bills like the Respect for Marriage Act that redefine marriage to be the union between any two individuals, HMRE program grants should be available to faith-based recipients who affirm that marriage is between not just any two adults, but one man and one unrelated woman.

I know you care about **reproductive freedom** so found info on Project 2025's impact. First pg. 450: "Abortion and euthanasia are not health care." Also pg. 455: Ramp up "abortion surveillance," particularly in "liberal states [that] have now become sanctuaries for abortion tourism."

TEXT #2 (save photo(s) then send/attach)

Goal #1: Protecting Life, Conscience, and Bodily Integrity. The Secretary should pursue a robust agenda to protect the fundamental right to life, protect conscience rights, and uphold bodily integrity rooted in biological realities, not ideology. From the moment of conception, every human being possesses inherent dignity and worth, and our humanity does not depend on our age, stage of development, race, or abilities. The Secretary must ensure that all HHS programs and activities are rooted in a deep respect for innocent human life from day one until natural death: **Abortion and euthanasia are not health care.**

I know you care about **racial justice** so found info on Project 2025's impact. It's from pg. 4: calls for "deleting the terms ... diversity, equity, and inclusion ("DEI") ... out of every federal rule, agency regulation, contract, grant, regulation, and piece of legislation that exists." Also pg. 342-3, which denies that American history has ever been racist.

assignments in which students must defend the false idea that America is systematically racist, the theory is actively disrupting the values that hold communities together such as equality under the law and colorblindness.

I know you care about **public schools** so found info on Project 2025's impact. It's from pg. 318: "Federal education policy should be limited and, ultimately, the federal Department of Education should be eliminated." Also pg. 319 expands "education options" and "school choice," code words for funneling taxpayer dollars to private, predominantly religious schools that can indoctrinate and discriminate.

TEXT #2 (save photo(s) then send/attach)

MISSION

Federal education policy should be limited and, ultimately, the federal Department of Education should be eliminated. When power is exercised, it should empower students and families, not government. In our pluralistic society, families and students should be free to choose from a diverse set of school options and learning environments that best fit their needs. Our postsecondary institutions should also reflect such diversity, with room for not only "traditional" liberal arts colleges and research universities but also faith-based institutions, career schools, military academies, and lifelong learning programs.
